## **12 Safety Secrets To Know When Driving The Biggest Trucks In The World**

1. Overloading the upper portion of the truck box is very dangerous. Never do that!
2. Always have in mind that the ground is unstable. Never use tired excuses like "Dumped on way worse surfaces before"
3. Before operating your Dump Truck, always and I mean ALWAYS check the tire pressure. Uneven tire wear can lead to truck instability and accident
4. Hard Hat, shoes, glasses, gloves are MUST. Wearing a safety gear can save your life!
5. The Dump Truck can act as a conductor and carry electrical currents, so be sure that the electrical wires can't come into contact with the truck.
6. Keep your speed slow when backing up your dump truck, and try to find someone to guide you when turning.
7. Develop stress management skills - staying focused and ready to act will help you solve even the most difficult situations
8. Remind the people around not to gather when you are unloading the truck.
9. Aim for perfection when you are driving in a traffic jam. Drive slowly and avoid hard braking.
10. Never skip pre-trip and post-trip Inspection and prevent breakdowns and accidents.
11. Be maximally focused on the road because it is very easy to get distracted.
12. Protect yourself from accident and fines with being always on track with the Federal Regulations
