10 Secret Tips To Stay Focused While Driving On Dangerous Roads

1. Take 15 - 30 minute power nap prior to driving through the dangerous area.
2. Carry few cubes of ice with you. Chewing Ice increases concentration and focus.
3. Listen to the fast music because it stimulates the brain to be alerted.
4. Eat light food like salads before driving. Meat and fat could make you sleepy.
5. Open the window if possible.
6. Don't talk or text during the ride.
7. Drive close to the center line that separates the driving lanes.
8. Avoid night drive if possible.
9. Eat sunflower seed during driving because it raises concentration.
10. Have a cup of coffee but not more than one.
